ABSTRACT

Although designed specifically for students at California State University - Sacramento, this bibliography on the changing role of women provides citations which enable students to trace the history of ideas of the women's movement, and to bring into focus a vast collage of facts. The bibliography is arranged alphabetically by author in the following categories: crime and rape, education, employment, family and family planning, history of women prior to 1960, juvenile books, literature and fine arts, political activity and civil rights, reference materials, sex roles and stereotypes, sexuality, health and psychology, third world women, and the womens liberation movement. First published in 1971, the bibliography was initially revised in 1972. (PC)

INTRODUCTION

The Changing Role of Women, compiled by Leah Freeman, was first published in 1971 and revised in 1972 in response to widespread interest in and re-evaluation of the place and role of women in our society. The bibliography has been used in conjunction with several academic courses currently offered on the campus, especially the Women's Studies Program. The growing interest in this subject, as well as the expansion of our resources in books, periodicals and pamphlets, mandated this third edition of the original bibliography.

Since 1969, the Library, California State University, Sacramento, has published a series of bibliographies designed to aid students and faculty to make more effective use of the resources available in our Library. These bibliographies are not intended to be comprehensive listing of all known materials on a particular subject, but rather a selection of materials available in this Library.

Complimentary copies of this and most of the earlier publications in the Bibliographic Series are available to students and faculty members at the Card Catalog Reference/Information Desk or at the several reference/information desks within the Library. Your comments or suggestions on these publications will be appreciated.

PREFACE

There have been significant indications in recent years that women are increasingly aware of the need to change their socio-economic status and to reassess aspects of their sex roles in society. This awareness ranges from support for the Equal Rights Amendment and drives for social and economic justice to the espousal of radical feminism. The activity of this social movement has been reflected in the increased amount of literature being published by, for, and about women. It is with this in mind that the third edition of this selective bibliography has been compiled.

I have attempted to develop the women's studies collection as broadly as possible. In *The Changing Role of Women* I have tried to provide a bibliographic tool enabling students to trace the history and ideas of the women's movement, to bring into focus a vast collage of facts. The arrangement of the bibliography is alphabetical by author in the following categories: crime and rape, education, employment, family and family planning, history of women prior to 1960, juvenile books, literature and fine arts, political activity and civil rights, reference materials, sex roles and stereotypes, sexuality, health and psychology, third world women, and the women's liberation movement.

There are many people to whom my gratitude for their advice and encouragement should be acknowledged, but to name them all would not be possible. I give special thanks to student assistants Frances Rademacher and Anna Gubetta, Library Assistant Patricia French, and to my colleagues John D. McClure III, John Liberty, and Erika Condon Laws, who gave their time and energy so generously to help make this bibliography a reality.
